## MODEL TMP - FIELD CUTTABLE TEMPERATURE SENSOR PROBES AND ACCESSORIES

- THERMOCOUPLE OR RTD
- 24 " PROBE CUTTABLE TO 3 " ( 76 mm )
- MEASURE TEMPERATURES UP TO $1000{ }^{\circ} \mathrm{F}\left(538{ }^{\circ} \mathrm{C}\right)$
- MOUNTING AND WIRING ACCESSORIES

## GENERAL DESCRIPTION

Model TMP Thermocouple and RTD Temperature Probes are field cuttable to the desired length. The probes can be trimmed to within 3" ( 76 mm ) of the probe tip allowing for greater application flexibility. Accessory hardware is available to wire and mount the probes in the user's existing thermowell.
Optional spring loaded fittings (sold separately) slide along the probe sheath to proper immersion depth as determined by the user. These fittings allow for strong contact between the probe and the thermowell to improve response.

## SPECIFICATIONS

1. THERMOCOUPLE: Ungrounded J, K, T and E calibration available.
2. RTD: 3 Wire, $100 \Omega$, Class "B" DIN Platinum (Type 385)
3. PROBE SHEATH: $0.25^{\prime \prime}(6.35 \mathrm{~mm})$
4. PROBE LENGTH: 24 " ( 0.6 M ) as supplied, can be field cut down to $3^{\prime \prime}$ ( 76.2 mm ).
5. WIRE LENGTH: $40^{\prime \prime}(1 \mathrm{M})$ thermocouple, 24 " ( 0.6 M ) RTD
6. WIRE INSULATION: PFA, Fiberglass or High Temperature Glass. As specified by part number.

## CUTTING THE TUBING

The thermocouple and RTD probes have a crimp mark located $3^{\prime \prime}$ ( 76.2 mm ) from the tip. This indicates the end of the internal seal. Damage to the probe will occur if trimmed less than $3^{\prime \prime}$ from the tip.

1. Determine the desired probe length and mark it with a pen or marker. Secure the probe within a tube vice being careful not to deform or flatten the probe.
2. Use a tubing cutter to cut the sheath at the marked location. Be careful not to cut or damage the sensor wires.
3. Remove the excess tubing and trim the wires to the desired length.
4. Install the tube sleeve in the open end of the tube to protect the wires from any sharp edges on the inside of the tube.

## INSTALLATION

1. Orient the probe and the spring loaded fitting as shown above.
2. Screw the spring loaded fitting one complete turn into the thermowell (not included).
3. Push the probe into the fitting until it touches the bottom of the thermowell.
4. Hold the probe to the bottom of the thermowell and tighten the fitting. This ensures good contact between the probe and the bottom of the thermowell.
5. Completely tighten the fitting into the thermowell.

Note: The probe must be inserted only as shown above to prevent damage to the fitting.

If it becomes necessary to separate the probe and the fitting, first disconnect the wires and then unscrew the fitting completely from the thermowell. Pull the probe through the fitting from the end that was screwed into the thermowell. The fitting will present resistance to the probe removal if you attempt to remove it from the wrong direction.

ORDERING INFORMATION

| DESCRIPTION | TYPE | MEASUREMENT RANGE | WIRE COLOR | WIRE INSULATION | MAX PROBE TEMP. | PART NUMBER |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| TC Probe | J | $\begin{aligned} & 32 \text { to }+1382^{\circ} \mathrm{F} \\ & 0 \text { to }+750^{\circ} \mathrm{C} \end{aligned}$ | White (+) <br> Red (-) | PFA | $260{ }^{\circ} \mathrm{C} / 500{ }^{\circ} \mathrm{F}$ | TMPJ2SU1 |

## ACCESSORIES (sold separately)

Weatherproof Heads:
Cast Aluminum
Protects against dust, rain, splashing, and hose directed water
Weatherproof gasket
Stainless steel chain

TMPACC02

Spring Loaded Fittings: Connects probe to thermowell and attaches to weatherhead $1 / 2^{\prime \prime}$ NPT X 1/2" NPT Stainless Steel.

Tube Sleeve
Tube sleeve to protect probe leads from burrs after cutting probe.

## Terminal Blocks

2-Terminal for use with TCs

TMPACC04

TMPACC01

TMPACC03

ACCESSORIES (All accessories are sold separately)

| MODEL No. | DESCRIPTION | PART NUMBER |
| :---: | :--- | :---: |
| TMPACC | Spring Loaded Fitting | TMPACC01 |
|  | Cast Aluminum Weatherproof Head | TMPACC02 |
|  | Spare Tube Sleeve | TMPACC03 |
|  | 2-Terminal Block (for TCs) | TMPACC04 |
|  | 4-Terminal Block (for RTDs) | TMPACC05 |

## LIMITED WARRANTY

The Company warrants the products it manufactures against defects in materials and workmanship for a period limited to two years from the date of shipment, provided the products have been stored, handled, installed, and used under proper conditions. The Company's liability under this limited warranty shall extend only to the repair or replacement of a defective product, at The Company's option. The Company disclaims all liability for any affirmation, promise or representation with respect to the products.
The customer agrees to hold Red Lion Controls harmless from, defend, and indemnify RLC against damages, claims, and expenses arising out of subsequent sales of RLC products or products containing components manufactured by RLC and based upon personal injuries, deaths, property damage, lost profits, and other matters which Buyer, its employees, or sub-contractors are or may be to any extent liable, including without limitation penalties imposed by the Consumer Product Safety Act (P.L. 92-573) and liability imposed upon any person pursuant to the Magnuson-Moss Warranty Act (P.L. 93-637), as now in effect or as amended hereafter.

No warranties expressed or implied are created with respect to The Company's products except those expressly contained herein. The Customer acknowledges the disclaimers and limitations contained herein and relies on no other warranties or affirmations.
